### Legal Notice

Georgia Department of Transportation  
Office of Environmental Services  
30-Day Public Advisory

Subject: Application for Encroachment Upon the 25-Foot Vegetative Buffer For Five State Waters

Project:  
NH000-0051-01(025), PI 122850  
County: Clarke  
City: Athens

GDOT Project NH000-0051-01 (025), PI# 122850, involves the replacement of the signalized intersection of SR 10 Loop with Peter Street and Olympic Drive with a grade separated interchange. Peter Street and Olympic Drive are 2-lane roadways with additional lanes at the intersection of SR 10 Loop. The proposed project would lower Peter Street/Olympic Drive and construct bridges on SR 10 Loop over this street as well as a compressed diamond interchange with one loop ramp in the southwest quadrant (a Quarter Cloverleaf Interchange). SR 10 will retain the 4 lanes and the 40 foot median and stay on the same vertical geometry that it currently has. Construction on SR 10 Loop will begin just north of the Nellie B. Avenue overpass and end just south of the bridge over the CSX railroad. Peter Street and Olympic Drive will be widened to a 4-lane urban section with a 24 foot raised median and 16-foot urban shoulders. The project would also construct 4-foot bicycle lanes adjacent to the proposed travel way along Peter Street/Olympic Drive in each direction. Two traffic signals are proposed for the ramp intersections with Peter Street and Olympic Drive. The project length is approximately 1.1 miles along SR 10 Loop and 0.5 miles along Peter Street/Olympic Drive. The project is located in the Upper Oconee Watershed, within Hydrologic Unit Code 03070101. Several state waters occur along the project corridor. The project would result in a total of 1,222 linear feet of stream buffer impacts: 223 linear feet to Stream 1, 28 linear feet to Stream 2, 398 linear feet to Stream 3, 242 linear feet to Stream 4a, and 331 linear feet to Stream 5. The impacts are associated with construction of the intersection improvement project. A total of 44,149 square feet of buffer impacts are proposed: 3,672 square feet to Stream 1, 255 square feet to Stream 2, 1,910 square feet to Stream 3, 14,886 square feet to Stream 4a, and 23,426 square feet to Stream 5. In addition to stream credits to satisfy the Section 404 permit, an additional 274 stream credits would be purchased for stream buffer impacts associated with Streams 2 and 3. Approximate length of disturbance is 30 months. After project completion, the disturbed buffers would be stabilized by

Site plans for the proposed construction can be viewed at the Georgia Department of Transportation Athens Area Office at 450 Hull Road, Athens, GA, 30601. (706) 369-5627.

Written comments should be submitted to: Program Manager, Non-Point Source Program, Erosion and Sedimentation Control, 4220 International Parkway, Suite 101, Atlanta, Georgia 30354.

The public is invited to comment during the 30-day period on the proposed activity.

### NOTICE

GEORGIA, CLARKE COUNTY  
PROBATE COURT

TO: ANY AND ALL  
INTERESTED PARTIES

JOHN R. CARROLL has petitioned to be appointed Administrator(s) of the Estate of LISA ANN CARROLL, deceased, of said County. (The petitioner has also applied for waiver of bond and/or grant of certain powers contained in O.C.G.A. 53-12-261.) All interested parties are hereby notified to show cause why said petition should not be granted. All objections to the petition must be in writing, setting forth the grounds of any such objections, and must be filed with the court on or before October 24, 2011. All pleadings/objections must be signed before a notary public or before a probate court clerk, and filing fees must be tendered with your pleadings/objections, unless you qualify to file as an indigent party. Contact probate court personnel at the following address/telephone number for the required amount of filing fees. If any objections are filed, a hearing will be scheduled at a later date. If no objections are filed, the petition may be granted without a hearing.
